Re: 2007 ESOL Teacher Recommendation

Date: Monday, April 30, 2007

I would like to recommend David Jaye as ESOL Teacher of the year. David has worked throughout the 2006-2007 school year at Gulf Coast High School's Adult Education Program. He has taught the upper levels of English and provided a variety of activities to meet the various needs of his students. David has supplemented his instruction with the use of technology by working with digital cameras to making business cards on the computer. By accessing various websites, and having students experience them first hand, he has inspired his students to work beyond the regular classroom setting. He has taken initiatives for making ESOL students feel comfortable and accepted into our program. He has fostered an excellent rapport with his students by facilitating social activities at his home, the beach and at other student's homes/club houses to help the class see themselves as a community of learners. David has surely instilled a love of learning in his students and gained their respect as a teacher by demonstrating interest in their lives and well being.

Respectively submitted,

David Jordan
GCHS Site Coordinator
